**UPDATE ON 2020 MEETING AND TOUR INFORMATION**

by TOM SLAVIN, PROGRAM MANAGER

**The 2020 Meeting theme is “2020 VISION – A LOOK AHEAD AT KEY IH ISSUES”**

The program will include speakers on a variety of timely topics including robotics, climate change, psychosocial health, leading health metrics and talc. In addition to updates from the major IH professional organizations, highlights of the 2020 vision program include:

- Health impacts of the microbiome. Star biologist, professor at UC San Diego, co-founder of the American Gut Project, and renowned speaker, Dr. Rob Knight will tell us about breakthroughs in understanding how the microbiome is related to health and disease.
- Exploration of threshold theory. Expect a spirited exploration of risk science from Dr. Ed Calabrese, the UMass Amherst environmental toxicologist who has long been a critic of the current linear no-threshold (LNT) approach to risk assessment for radiation and toxic chemicals, and Dr. Scott Dotson who will take us beyond risk assessment for exposure management.

**Technical Tour:** Thursday afternoon tour 2:00-5:00 PM - Join us for an afternoon of learning at Levitate Technologies, one of the leading designers of exoskeletons and maker of the “AIRFRAME” a wearable, lightweight technology engineered to improve upper extremity musculoskeletal health in workers who engage in repetitive arm motion and/or static elevation of the arms. Levitate helps clients such as Toyota, BMW and John Deere make workers safer and more productive. We will board a bus from the hotel at 2:00 PM arrive at the Levitate site to:

- Learn about the device, review information on its application and see data on results
• See how exoskeletons are designed and developed for specific applications
• Experience the device; each person will be able to try on a device and adjust it for their body to see what it feels like and what it can do.

We will then board the bus for the return trip, arriving back at the hotel by 5:00 PM.

MEMBER NEWS:
Mark Hoover wrote: “I’m enjoying my first year of retirement from NIOSH very much. I’m keeping my hands in some interesting things like plutonium safety reviews for the Mars 2020 Mission, but I am very much liking the extra time to think and enjoy being home with Martha, and talking to the kids and grandkids. Fun times.” Wishing you luck and success in your new “retirement” ventures, Mark.

Terry Theedell wrote: “I have long appreciated the opportunity to be a member of the YPSW over these many years, however, current circumstances require that I retire my membership in the local section. I have enjoyed many sincere friendships and wish for the continued success of the section in the years to come. Warm regards.” Terry, we will miss your smiling face at the meetings, your many years of service and all the work you have done for YPSW.

Thomas Goob II – his obituary is attached for your information. FYI: I obtained this obituary from the Pittsburgh Post-Gazette. Tom was listed in the 2019-2020 YPSW Membership Book as inactive as we lost touch with him when he moved from Honolulu. For the 2002 annual meeting held in Kona, H1 –Tom brought the electronic equipment we needed from Honolulu to Kona – ensuring the 2002 meeting was a success – and that was before he became a member.
WEBSITE

Frank Hearl continues to keep the website current for our enjoyment and information. If you haven’t checked it out lately – you really should - www.ypswaiha.org. Many thanks to Frank for his continuing dedication in maintaining our website.

MISCELLANEOUS

An Executive Committee Meeting was held September 13, 2019 – several items need to be clarified and that will be done at another EC meeting later this month.

The Oct 1, 2019 News Release from the Safety Health Historical Society is attached for your perusal.

My deep appreciation to Barbara Dawson for volunteering and reformatting Tom’s program into the regular YPSW format. Her willingness to step in, and my gratitude, cannot be adequately expressed in words.

Final important gentle reminders: please (1) mail your registration form and check to me as soon as possible; and (2) make your hotel reservations as soon as possible so, if needed, I can request additional rooms at the group rate. To make room reservations call The Bay Club Hotel and Marina at (800) 672-0800 or (619) 224-8888 (Hotel Operator). Whichever number you use you must identify yourself as part of the YPSW-AIHA group attending the Jan 22-24, 2020 meeting to receive the special negotiated rate and have the reservation counted in the YPSW-AIHA room block.

Do send me any and all information you feel would be interesting to share with YPSW members in these membership letters.

I hope each of you have happy, safe and very enjoyable celebrations for Halloween, Thanksgiving, Christmas, watch the ball drop on New Year’s Eve and then a prosperous New Year surrounded by family and friends. Don’t miss an opportunity with family and friends whenever possible – life is too short to put off important things – so, enjoy every day to the fullest.

Be an active member of your community watch group—you and your neighbors are what make your community successful and safe for everyone. With the holidays approaching, thieves will no doubt redouble their efforts to steal any unattended packages/mail left at your doorstep; and, of course always put packages in the locked trunk of your car while shopping. Don’t make thievery easy for these unsavory folks. For added security, I can tell you my Ring Doorbell is wonderful!

Happy travels, stay safe and always be extra aware of your surroundings when you are out and about. I look forward to seeing you all in January in beautiful San Diego.

Very truly yours,
